HOT 'N COOL

HEISSKALT FUNKTIONAL.

Die doppelwandigen Produkte Hot 'n Cool von JENAER GLAS bieten außer dem Thermoeffekt noch weitere überzeugende

Produkteigenschaften:

- Außen immer angenehm kühl zu berühren, ob heiß oder kalt befüllt.
- Kein Kondenswasser an der Außenseite des Glases (Griffsicherheit) oder auf dem Tisch.
- Spülmaschinengeeignet (Universalprogramm max. 55°C / Gläserprogramm und Gastro-Maschinen uneingeschränkt), Silikonverschluss am Glasboden verhindert Wassereintritt.
- Das Silikon-Luftloch gewährleistet ständigen Luftdruckausgleich zwischen Glasinnenraum und Umgebung und unterstützt damit entscheidend die Produktstabilität.
- Vermeiden Sie schockartiges Erhitzen und Abkühlen der Gläser.

FUNCTIONAL FOR HOT AND COLD.

These double-walled Hot 'n Cool products from JENAER GLAS are more than just insulated utensils:

- Exterior of the glass is always cool to the touch, regardless of temperature of liquid.
- No beading on the outside of the glass - improving presentation and hand grip.
- Dishwasher-resistant (select universal program of max. 55°C / rinse cycle for glasses and gastro machines unlimited), silicon seal in bottom of glass prevents water penetration.
- Silicon air vent ensures continuous equalisation of pressure between interior space and surrounding atmosphere, increasing product strength.
- It is important to avoid sudden drops or rises in the temperature of the glass.
